

E-POSTER GUIDELINES

*The 33rd International Conference of the System Dynamics Society
Cambridge, Massachusetts, USA*

- ❖ Prepare a single slide/page E-poster. Submit your poster as Supporting Material in the [Web Portal](#). Your E-poster will be uploaded to the [E-poster](#) site upon receipt.
- ❖ All E-posters displayed on this site will be used to create a slide show for presentation at the conference at each plenary session (one file for both uses).
- ❖ Standard screens and projectors will be used to display the E-poster slide show, so please set the width/height ratio of your poster to 4:3. This is also the normal default setting in PowerPoint.
- ❖ Please limit the amount of information on your poster and use a font size that is big enough to read easily. Diagrams should be easy-to-read, un-crowded, and focus sharply on the main point.

If you have any questions, please contact the System Dynamics Society office:
