Supplementary Files

This presentation discusses two versions of the Energy Policy Simulator.

- To use the web application interface for the China version, navigate to **http://china.energypolicy.solutions** in a web browser. All interaction is browser-based.

- To use the open beta of the International version, you will need to have a copy of Vensim Model Reader, Vensim Pro, or Vensim DSS v6.3b (released June 2015) or later. Complete instructions and download links for obtaining an up-to-date version of Vensim Model Reader and the open beta model can be found at **http://energypolicy.solutions**. In particular, please read the "**How to Get the Model**" section.
