

Legacy Fund Financial Status

27 September 2017

The Legacy Fund had a successful “soft launch” at the annual banquet in July. That launch yielded just over \$112,000 in pledges, with current cash on hand approximately \$37,500. We intend to put up a web site that will formally launch the Legacy Fund Campaign to the entire membership of the Society during the fourth quarter of 2017. We expect that in the future, this web site may convert to something like an “annual fund drive” where all members of the Society may choose to donate. The Legacy Fund Team has not determined the exact manner, but does also expect to raise additional funds outside the membership of the Society.
