Issues to discuss in the fishbowl exercise

- We have a model: Collaboration_v1_4a.mdl
- This model captures 80% of what was on the board filtered through Mohammad and Luis mind (although Mohammad is trying to deny it)
- We have added some concepts to it
- No extensive experiments with the model yet, so we do not know policy implications
- Convey the model to the group for their reflection, How we are going to do that?
