Conflict, Defense, & Security

Special Interest Group | System Dynamics Society

MISSION

The goal of the **Conflict, Defense, and Security Special Interest Group** is to bring together system dynamics (SD) researchers who have an interest in conflict, defense, and security issues — including such topics as war, terrorism, insurgencies, cybersecurity, critical infrastructure, and state stability.

We hope to build a critical mass of SD researchers in this area.
Please join by contacting us at conflict@sigs.systemdynamics.org
or Webmaster@ConflictSIG.org
