Special Interest Group on Model Analysis (SIG-MA)

SIG-MA focuses on the development, use and advancement of formal model analysis methods and tools in System Dynamics.

Roundtable and Annual Meeting
Wednesday 15:00, Aula Room C

SIG-MA Workshop
Thursday 08:30 – 17:00, TPM I
Part 1 (08:30): Pattern oriented model testing and validation
Part 2 (10:30): Multivariate sensitivity analysis
Part 3 (13:00): Statistical screening to identify key inputs
Part 4 (15:00): Loop Eigenvalue Elasticity Analysis
