

This file contain the Loops present in this CLD.

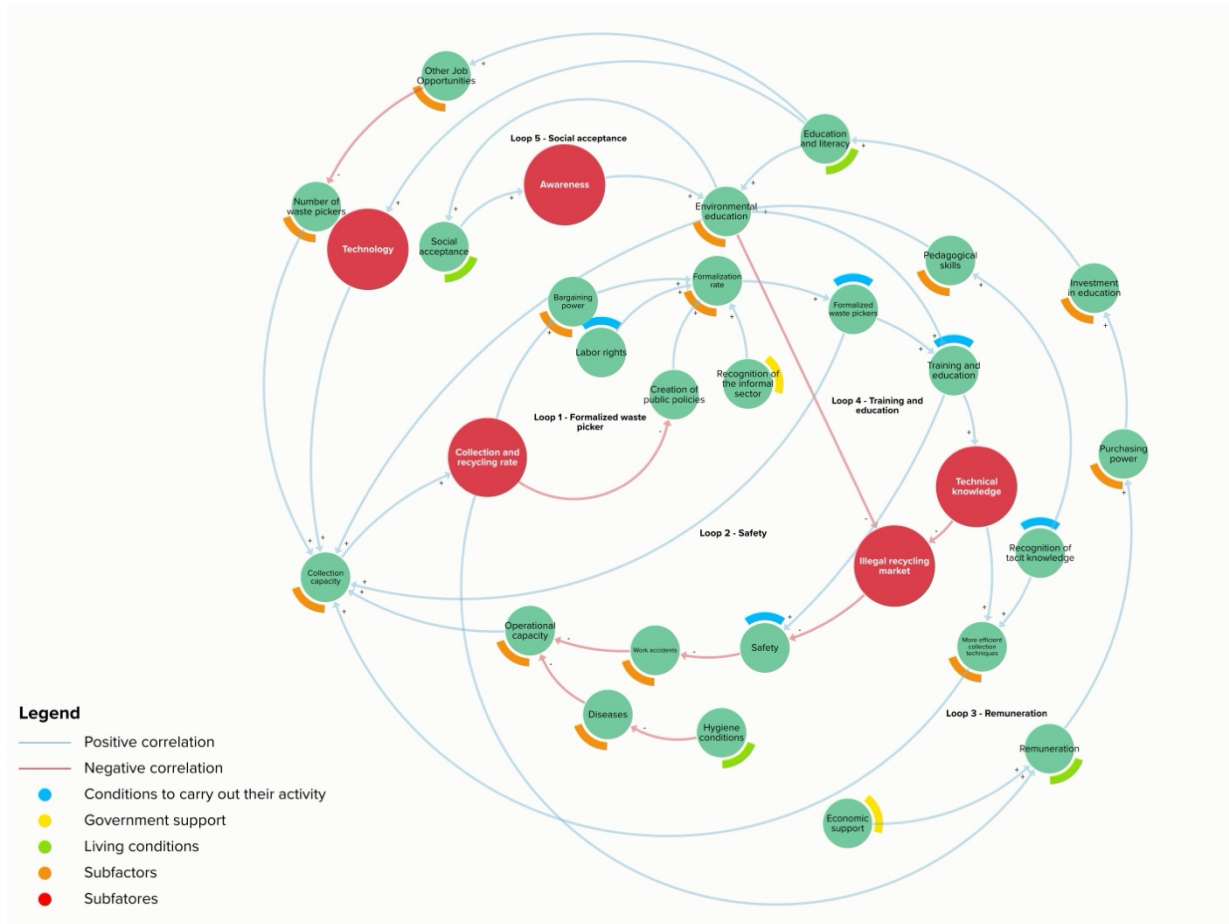

Table 3 - Loops present in the model

Identification	Flow	Loop type
Loop 1 - Formalized waste pickers	Formalized waste pickers -> Collection capacity -> Collection and recycling rate -> Bargaining power -> Formalization rate -> Formalized waste pickers	Reinforcing
Loop 2 - Safety	Safety -> Work accidents -> Operational capacity -> Collection capacity -> Collection and recycling rate -> Bargaining power -> Formalization rate -> Formalized waste pickers -> Training and education -> Technical knowledge -> Illegal recycling market -> Safety	Reinforcing
Loop 3 - Remuneration	Remuneration -> Purchasing power -> Investment in education -> Education and literacy -> Environmental education -> Collection capacity -> Collection and recycling rate -> Remuneration	Reinforcing
Loop 4 – Training and education	Training and education -> Technical knowledge -> More efficient collection techniques -> Collection capacity -> Collection and recycling rate -> Bargaining power -> Formalization rate -> Formalized waste pickers -> Training and education	Reinforcing
Loop 5 – Social acceptance	Social acceptance -> Awareness -> Environmental education -> Social acceptance	Reinforcing

Legend

- Positive correlation
- Negative correlation
- Conditions to carry out their activity
- Government support
- Living conditions
- Subfactors
- Subfatores
