

# SYSTEM DYNAMICS REVIEW

## REPORT OF EXECUTIVE EDITOR TO POLICY COUNCIL JULY 2006 (NIJMEGEN)

### 1. **Volume 22 Issue 2**

This is now published and members should have received their copies or will do so within 10 days.

### **Volume 22 Issue 3**

This is filled and will be published in September.

### 2. **Statistics**

Various reports can be run in *Manuscript Central* and two of these are included as appendices. Appendix 1 gives Summary Statistics and Appendix 2 a more detailed overview of papers that have been processed from the first submission scrutiny stage. When reading the appendices please bear in mind that *Manuscript Central* has been live for only just over six months. Many manuscripts are still out at review.

Geographical origins of authors are as follows:

USA & Canada	7
Europe	7
Asia	9
Africa	1
South America	1

### 3. ***Manuscript Central***

The benefits of the new system are considerable, although all editors have had to familiarise themselves with its nuances.

### 4. **Special Issues**

Apart from what is covered under item 8, we have no current proposals for special issues. The most recent special issue was 21:3. I have a one-page protocol for anyone intending to suggest a new special issue theme.

5. **Editorial Board members**

I have reviewed the list of associate editors and as a result a number have been de-listed. I have invited Susan Howick (University of Strathclyde, UK) to join the associate editors and would welcome suggestions for one or two more.

6. **Website for models**

It is likely that this long-running matter will finally be resolved during this conference period.

7. **Consultants' Section of the SDR**

A proposal to offer a publication outlet for consultants, perhaps within the pages of SDR, will be discussed at the Editors' Meeting in Nijmegen.

8. **50<sup>th</sup> Anniversary Special Issue**

The Call for Papers for this Special double issue (2007 v.2-3) has gone out on the List Serve and is also included in volume 22:2.

Brian Dangerfield  
Executive Editor
