

Security SIG Annual Report 2006

The Security Special Interest Group was established November 2003. In June 2006 the SIG has 35 members. The SIG leaders are Jose J. Gonzalez and Klaus Breuer.

The SIG activities have been conducted informally by email and oral contacts.

One main activity by the Security SIG (or members of the SIG) has been to convene and organize security sessions at the ISDC 2006.

Another activity by members of the SIG has been a series of workshops related to information security (in Albany, NY, USA and Grimstad, Norway). This has resulted in several joint papers (to ISDC 2006, HICSS 2007 and some journals).
