

VP Member Services Report
Winter meeting of the Policy Council 2008
Submitted by Deborah Campbell

Updates

Income-based dues structure implementation:

- ◆ Early reactions to the new structure have been primarily positive.
- ◆ We are pleased with renewals received to date and there is no decline in membership revenue.
- ◆ Small, but vocal, negative feedback is being addressed by the Dues Committee (see Dues Committee report).

SIGs:

The Special Interest Group for Model Analysis (SIG-MA) was formally accepted into the System Dynamics Society in October 2007.

Career Link:

In reviewing the web page, there are several recent and current job postings, so the positive is: these are up-to-date. Unfortunately, the company/organizational profiles are out of date, so this will be addressed in the coming months.

This year -- 2008:

Agata Sawicka, my AVP, and I are currently discussing and developing a strategy for our work this coming year. If anyone has ideas they would like us to consider in the area of Member Services, please contact us at deborah-campbell@comcast.net.
