

Motion: Award presentations guidelines at the annual conference

Proposed:

Subject to the approval of the Awards Committee, SIGs and Chapters may give one or two awards for best work during their scheduled meetings at the annual ISDC. These awards will be announced briefly at one of the plenary sessions used for awards and special announcements. A representative of each SIG/Chapter with award(s) to announce will be allowed a maximum of 2 minutes total (whether it is one award or two) to describe the award criteria, the prize money and sponsor if any, and the winning work(s). Other approved award contributors will have similar allowances for presentation during one of the plenary sessions.

Proposed by James Lyneis, second by David Andersen) February 13, 2008
