

**Motion to recognize the Benelux Chapter of the System Dynamics Society
(3/15/2011)**

A group of dynamicists has decided to formalize their operations as the "Benelux Chapter of the System Dynamics Society". The constitution complies with the Society's rules; 33 active members have signed the petition, 14 of them are full members.

The officers will be:

- President: Erik Pruyt
- Vice prdt. Meetings: Inge Bleijenbergh
- Vice prdt. Members: Bart Steverink

This group has already organized first activities, and the founding members are well-known members of the Society. I believe the list is acceptable even though we have it in scanned format.

Therefore I move the petition to recognize the Chapter.

Martin Schaffernicht
