

## **Motion to approve the new chapter constitution of the Canada Chapter**

(Martin Schaffernicht, VP Chapters)

In Canada, a group of system dynamicists has undertaken the effort to launch a Canadian Chapter. The founding officers are

- *President*: Randy Park (Partner, Lighthouse Nine Group)
- *Vicepresident*: Al Vahid Esensoy (PhD candidate, U. of Toronto)
- *Secretary*: Tim Kelly (PhD student, Simon Fraser University)
- *Society Liaison*: Sahrah Boyer (Consultant)

The proposed new constitution complies with the Society's rules. 12 full members in good standing have declared their adherence to the chapter.

This is a motivated group of individuals including longstanding members of the Society, combining university presence and practitioners.

The existence of a Chapter in Canada can be the opportunity to reinforce their local community and to strengthen the discipline in North America.

Therefore I submit the motion to recognize the Canadian Chapter.
