# System Dynamics Society VP Finance Narrative Report February 2016 Meeting Submitted by David F. Andersen

Summary: This abbreviated report is based on two financial reports developed each year by the Society's home office staff: (1) Revenue & Expense, 2015 & 2014 Comparison, and (2) Balance Sheet, 2015 & 2014 Comparison. A full report with more detailed reports will be presented at the July Policy Council meeting.

How Did the Society Do Overall in 2015? The Society experienced a relatively poorer financial performance in 2015 due primarily to the performance of our investments. The two attached reports come directly from the Quick Books system that is maintained by the Home Office staff. These reports have not been reviewed by our CPA and I am quite certain that they will change somewhat because a number of important transactions have not yet been posted. For example, I expect that our journal income will increase by about \$60,000. The society operates on an accrual basis so adjustments to our 2015 report will continue to happen for some time. I predict that when everything is properly accounted for the Society will close out 2015 with an overall loss in Net Ordinary Income similar to our final numbers for 2014. In addition, this year our Net Income will probably also be negative. Our assets have performed less well than in the recent past due to general conditions in financial markets.

If members of the society, its officers, or members of the PC have additional questions about how the Society performed in 2015, I will be happy to try and answer your questions or get an answer ASAP. *Please remember that figures and reports will change somewhat after final postings and CPA review.* 

What Else Is Going on with Society Finances? Each year, I work with the Administrative Committee and home office staff on a number of projects and issues. This year, here are some of the things that we are working on:

- I Plan on Stepping Down as VP Finance in an Orderly Fashion. I believe that soon it will be time for me to step down as VP Finance so that a next generation of leadership can step up to guide the Society's financial future. I plan to work closely with the Administrative Committee, the Nominating Committee, and the Policy Committee so that we will have a smooth transition.
- **Transition Planning**. I will put my best thoughts about transition planning into a coherent proposal to be vetted through the Administrative Committee before leading to possible action by the Policy Council.

If you have any further questions about the Society's financial health, please do not hesitate to be in touch with me directly.
