## **President's Welcome**

Paulo Gonçalves

Università della Svizzera Italiana

- Welcome
- Interactive meetings:
  - Positive comments from this effort
  - We will reach out to explore more opportunities
- Participation:
  - Continued support from SDS volunteers in general and particularly last month

# Agenda

- 0:05 Welcome (Paulo Gonçalves)
- 0:05 Motions
  - Feb and March Meeting Minutes (Brad Morrison)
  - Slates of Candidates (Martin Schaffernicht)
  - Standing Committee Minutes (Paulo Gonçalves)
- 0:50 Strategy Follow Up (Paulo Gonçalves, Shayne Gary)
- 0:05 VP Membership (Asmeret Naugle)
- 0:05 VP Meetings Future of Meetings (Len Malczynski)
- 0:05 Announcements
- Adjournment

## Motions in 2021

### **COMING UP**

• TBD

### **IN PROCESS**

- 2022 Slate of Candidates (Martin Schaffernicht) VOTE at Meeting?
- Standing Committee Nominations (Paulo Gonçalves) VOTE at Meeting?

### PASSED

- (1000) *Nigerian Chapter* Stefano Armenia, Jack Homer (Y:19/N:0/A:0/NV:6)
- (1021) *Stewardship Committee Policy* Bob Eberlein, Birgit Kopainsky (Y:19/N:0/A:3/NV:3)
- (1022) *Stewardship Committee Budget & Plan* Birgit Kopainsky, Bob Eberlein (Y:18/N:0/A:3/NV:4)
- (1023) *ISDC 2022 Program Chairs* Sara Metcalf, Jack Homer (Y:19/N:0/A:1/NV:5)
  - Move to approve Birgit Kopainsky, Gloria Perez Salazar, and Nici Zimmerman

### **Anything Else in the Works?**

### Motion to Approve Policy Council Minutes February 2021 - March 2021

Moved by Brad Morrison

To approve the Policy Council Meeting Minutes from February 2021 - March 2021.

# Nominating Committee Process (Martin Schaffernicht)

# Stick to rules/traditions updated in 2020:

- all communication with potential nominees by chairperson
- ask current officers if they are interested in staying another turn
- internal discussions are confidential

### Process

- revise and update candidate list based on suggestions from committee members
- voting and ranking, then proceed from top rank on

## Thanks to the

- officers who leave and have suggested potential successors
- officers who are interested in another term
- new nominees who have accepted responsibility
- members of the current and the previous Nominating Committee

Past President: Martin Schaffernicht (Chair) President: Birgit Kopainsky President Elect: Paulo Goncalves Asmeret Bier Naugle 8/2020-7/2023 David Lane 8/2019-7/2022 Rogelio Oliva 8/2018-7/2021

## Slate of Candidates 2022 (Martin Schaffernicht)

President Elect	Brad Morrison   Brandeis University (2023)
Secretary	Lees Stuntz   Creative Learning Exchange (2022 - 2024)
VP Meetings	Sara Metcalf   University of Buffalo (2022 - 2024)
VP Professional Practice	Saras Chung   SKIP NV (2022 - 2024)
VP Marketing	Thomas Wittig   Wittigonia (2022 - 2024)
VP Membership	Asmeret Bier Naugle   Sandia (2022 - 2024)
PC Members at Large	<ul> <li>Jenson Goh (2022 - 2024)</li> <li>Tim Clancy (2022 - 2024)</li> <li>Kawika Pierson (2022 - 2024)</li> <li>Juan Pablo Torres (2022 - 2024)</li> </ul>

### **Motion to Approve Slate of Candidates** for terms beginning January 1, 2022

Moved by Martin Schaffernicht:

To approve the Nominations Committee's recommended slate of candidates for terms beginning January 1, 2022. The slate, once approved by the Policy Council, should be announced to the Membership of the System Dynamics Society in an April 2021 email with a solicitation for new nominations. If no new nominations are received, the slate will be declared elected at the General Business Meeting to be held online in August 2021.

## **Standing Committee Vacancies (Paulo Goncalves)**

Strategy Committee	Sharon Els   Sage Analysis Group (2021-2023)
Executive Committee	Hyunjung Kim  Chico State University (2021 - 2023)
Publications Committee	Josephine Musango   Stellenbosch University (2022 - 2024)
Nominating Committee	Juan Pablo Torres   Universidad de Chile (8/2021 - 7/2023)
Organization and Bylaws Committee	Kawika Pierson  Willamette University (2021 - 2023)

## **Motion to Standing Committee Nominations**

Moved by Paulo Goncalves:

To approve the President's 's recommended standing committee nominations for terms beginning in 2021. The nominations, once approved by the Policy Council, will take effect immediately.

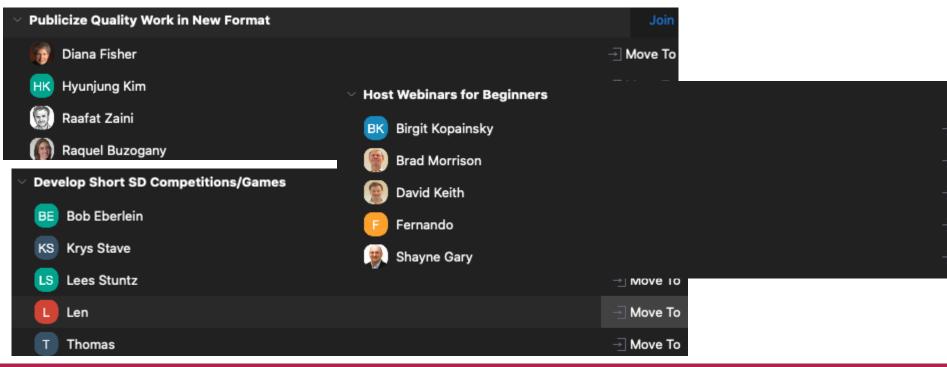

## **Strategy Follow Up: New Initiatives**

- Reviewed your group suggestions
- Selected 8 possible ideas for small-scale initiatives
- Seek Society volunteers to develop them in 2021
- Our selection process had two criteria:
  - O Idea could significantly contribute to stated goal; and
  - O Idea was described in a concrete way.
- Asked groups to identify a *champion* and elaborate on a single slide
- Transitioned to 6 ideas with Mentimeter vote

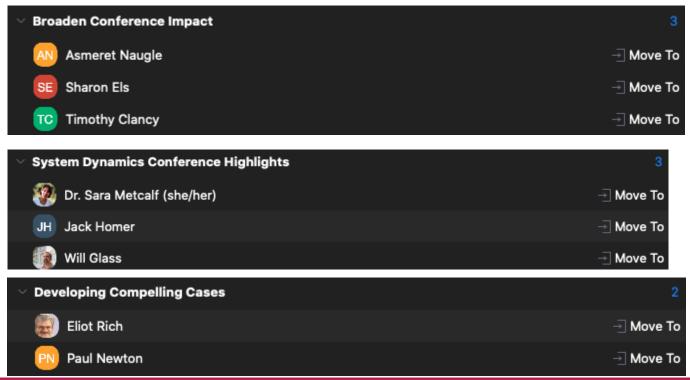

Shayne GaryPaulo GonçalvesUNSW Business SchoolUniversità della Svizzera Italiana

# Vote by Feet (top 3)

# Vote by Feet (2nd Tier)

# **Eight Winning Ideas**

#### 1. Host Webinars for Beginners

O (David Keith, Fernando Redivo)

#### 1. Broaden Conference Impact

• (Asmeret Naugle, Brad Morrison, Sharon Els)

### 1. Develop Short SD Competitions/Games

O (Thomas Wittig, Bob Eberlein)

#### 1. System Dynamics Conference Highlights

O (Will Glass-Husain, Krys Stave, Birgit Kopainsky)

#### 1. Development of Compelling Cases

O (Bob Eberlein, Thomas Wittig)

#### 1. Package & Publicize Quality Work in New Format

O (Len Maczynski, Raafat Zaini, Diana Fisher)

# Welcome!—Group Norms

<b>Try it on</b> Be willing to "try on" new ideas or ways of doing things that might not be what you prefer or are familiar with.	Practice Self Focus Attend to and speak about your own experiences and responses. Do not speak for a whole group or express assumptions about the experience of others
Intent does not equal Impact Try to understand and acknowledge impact. Denying the impact of something said by focusing on intent is often more destructive than initial interaction.	<b>Practice "Both/And"</b> When speaking, substitute "and" for "but." This practice acknowledges and honors multiple realities.
Refrain from Blaming or Shaming Practice mindful and skillful feedback	<b>Right To Pass</b> You can say "I pass" if you don't wish to speak.
<b>Practice Mindful Listening</b> Try to avoid planning what you'll say as you listen to others. Be willing to be surprised, to learn something new. Listen with your whole self.	Move up/Move back Encourage full participation by all present. Take note of who is speaking and who is not. If you tend to speak often, consider "moving back" and vice versa.
Practice Correct Attribution and Consent Be mindful of correctly attributing intellectual and emotional property. Lived experience, as well as work, ideas, and things said in the session, belong to those who shared them. Obtain consent and correctly attribute if you wish to share them.	Adapted from Visions Inc., "Guidelines for Productive Work Sessions;" www.visions-inc.org

  - O Idea could significantly contribute to stated goal; and
  - O Idea was described in a concrete way.
- Asked groups to identify a *champion* and elaborate on a single slide
- Transitioned to 6 ideas with Mentimeter vote

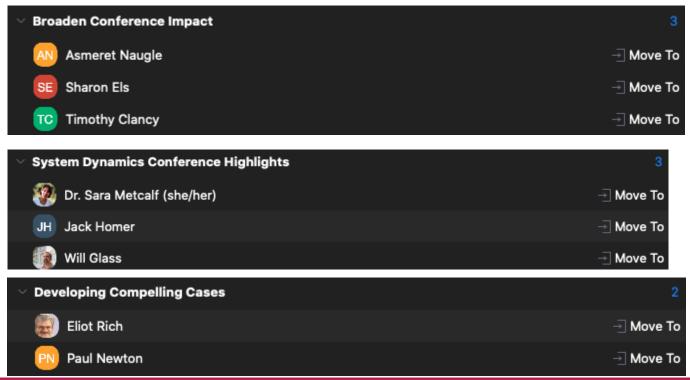

Shayne GaryPaulo GonçalvesUNSW Business SchoolUniversità della Svizzera Italiana

# Vote by Feet (top 3)

# Vote by Feet (2nd Tier)

# **Eight Winning Ideas**

#### 1. Host Webinars for Beginners

O (David Keith, Fernando Redivo)

#### 1. Broaden Conference Impact

• (Asmeret Naugle, Brad Morrison, Sharon Els)

### 1. Develop Short SD Competitions/Games

O (Thomas Wittig, Bob Eberlein)

#### 1. System Dynamics Conference Highlights

O (Will Glass-Husain, Krys Stave, Birgit Kopainsky)

#### 1. Development of Compelling Cases

O (Bob Eberlein, Thomas Wittig)

#### 1. Package & Publicize Quality Work in New Format

O (Len Maczynski, Raafat Zaini, Diana Fisher)

### **1:** Host Webinars for Beginners (David Keith, Fernando Redivo)

- SDS Webinars have been successful in 2020/21 Av. Attendance ~150
- Access to Experts has been a persistent challenge for Beginners
- Run Webinars in partnership with Student Chapter as a way of engaging Beginners at scale
- Keep recordings to build a repository of high-quality teaching resources
- Focus on 1) methodology fundamentals and 2) canonical models
- Content ideas:
  - Plan a sequence of fundamentals so that over time a self-guided course gets recorded any capable modeler can lead
  - $\circ$   $\,$  Have authors present their own papers where relevant e.g.
    - Rahmandad and Sterman (2012) Reporting Guidelines for Simulation-Based Research in Social Sciences
    - Black (2013) When Visuals are Boundary Objects in System Dynamics Work
    - Homer (1983/2012) Partial-Model Testing as a Validation Tool for System Dynamics
  - Run Webinars Alongside New SDR Publications e.g.
    - Schoenberg et al. (2020) Understanding Model Behavior using the Loops that Matter Method

### 2: Broaden Conference Impact (Munaf Syed Aamir, Asmeret Naugle, Brad Morrison, Sharon

**Goal:** We want to have a conference that people want to attend because they will learn something, be able to acquire services, and *E*acquire business.

**Benefit:** We can increase the impact and reach of system dynamics by reaching decision-makers and creating new opportunities for students, consultants, and others in the area.

#### Policy options for realization:

- 1. Actively encourage more vendors and customers to attend
  - 1. Targeted marketing
  - 2. Problem solving crowd sourcing for localized business to the physical conference (could be a learning opportunity for students to see how consulting is done live as well).
  - 3. Reduced attendance fees for potential customers
- 2. Dividing academic and business segments of the conference
  - 1. Create a vendor forum / association for the conference that focuses on creating ties and developing information for vendors.
  - 2. Create lower barriers for presenting application papers (e.g. abstract submissions phase then a presentation submission phase)
  - 3. Quality is important but this is competition ... poor quality will be met with poor results in attracting business

#### 3. Enhanced workshop day

- 1. Distinguish academic and actual vendor workshop slots
- 2. Consider charging vendors for slots, academic slots should be free but should be competitive
- 3. Consider including differing analytic perspectives at the conference that is geared to an applied audience
- 4. Could allow having a fee structure for select workshops.

### **3:** Develop Short SD Competitions/Games (Thomas Wittig, Bob Eberlein)

 $Competition \rightarrow Cooperation$ 

Leverage the "Beer" Game, modernized, Fishbanks.

Inspire and engage "next generation modelers"

Small games, Challenges, Several levels.

Look BCN, out of Singapore. Clexchange.org under apps, curriculum

### Goal: Engaging Games, Multi-level, Small models

- If you had to do this tomorrow, what would you do?
- What is an outcome you can achieve within a calendar year?

### Idea details:

- Who will be the champion? What will you do next? What is the team Composition?
- What are the details of the project? When should our group meet?
- Using small games, several levels. Based on SD models.
- Separate Idea: Hackathon, Giving feedback on the work.

### What are the resources required? Software vendors to host the games

## **Goal:**

- If you had to do this tomorrow, what would you do?
- What is an outcome you can achieve within a calendar year?

# Idea details:

- Who will be the champion? What will you do next? What is the team Composition?
- What are the details of the project? When should our group meet?

# What are the resources required?

• ??

# 4: System Dynamics Conference Highlights (Will Glass-Husain, Krys Stave, Birgit Kopainsky)

Goal:

•Increase awareness of executives, policymakers, & public about high-qual SD outputs (incr visibility)

#### Idea Description:

•Publish conference highlights on SD website on interesting talks, ideas, and themes. •Objective is to summarize interesting work in a way that can be shared with others, and also to facilitate cross-pollination of ideas within community.

•Use non-technical language and a clear writing style for accessibility by non-experts. •Articles may be themed, aimed at general audiences, or simply day-by-day "recaps" •Example topics:

•"Climate change is a key topic at 2021 System Dynamics Conference"

•"Educators share experiences of middle school students building computer models at 2021 System Dynamics Conference"

•"Chicago 2021 Day 1 – my experience"

#### **Resources Required:**

•5-10 volunteers to write articles during conference (due 1 week after)
•Coordinator to accept submissions, post articles (or summary w/ links) on website.
•Pre-conference prep: article template, submission system/instructions, prep section of website.

### 5: Development of Compelling Cases (Bob Eberlein, Thomas Wittig)

- <u>Case repository</u> is a fabulous resource
  - As is the story repository
- But the descriptions are specific to the work done
  - Need to generalize to other issues/problem areas
    - Much like the Archetypes in the 5th Discipline
    - Also the way that many pop-management books are written
- Cases then become a platform for applying the principles of systems in a variety of settings
  - Atrophy of the pancreas for those who remember Jay's story

### **6:** Package & Publicize Quality Work in New Format

(Len Maczynski, Raafat Zaini, Diana Fisher)

# Goal:

Increase awareness of executives, policymakers, & public about high-quality SD outputs (i.e., increase visibility)

# Idea description:

Produce short videos, animated abstracts, author interviews, podcasts, or translations of impactful/ Quality SD work.

Videotape ISDC plenary presentations and make them public on YouTube with multi language subtitles

## **Resources Required:**

SIGs to nominate/suggest distinguished work in their area

Volunteers to translate or check translation quality

SIGs to help with producing videos, animations, author interviews, and podcasts

Marketing to put media package together for publicity

### **Goal:**

- If you had to do this tomorrow, what would you do?
- What is an outcome you can achieve within a calendar year?

# Idea details:

- Who will be the champion? What will you do next? What is the team Composition?
- What are the details of the project? When should our group meet?

# What are the resources required?

• ??

### Wonder.me

- "Bump" into someone OR enter a circle to video chat
- Turn on camera and mic at bottom (sharing may require a setting change)
- Chat on right of screen

### **VP Membership Report**

- History
- Status Update
- Next Time

**Asmeret Bier Naugle** 

Sandia National Laboratory

### **Dues Change**

	2020 Dues	2021 Dues	
Full Time Students*	\$15	<b>\$25</b> \$15 if University Sponsored	
Supported Member (country or K- 12)**	\$15-\$110 based on self-report income	\$50	
Regular Member	\$140	\$140	

\* includes those two years after graduation though we have no way to check

\*\* includes countries classified by World Bank as lower income & lower-middle-income and special requests based on hardship

### Membership Status Update

	Budgeted Dues	Actual Dues	Budget Members	Actual Members
2019 Actual Quickbooks	\$61,554	<b>\$50,803</b> (avg \$71)		1001
<b>2020 YTD 08</b> Memberclicks	\$69,959	<b>\$84,935</b> (avg \$64)		1434
2021 (YTD)	<b>\$62,000</b> (avg \$62)	<b>\$90,24</b> (avg \$64) Includes some print journal dues	1000	982 13.9% subscriptions

Notes: Revenues exceed last year.

We are likely to get more memberships with conference registrations after acceptance letters.

# Activity in small groups, focused on ideas to increase membership

## Breakout session: Game competitions

Need to clarify: What is the objective? Who is the target audience?

Len participated in Hackathons with Powersim. US Soybean export council. Carbon emission reduction. Birgit was involved.

Idea: develop a game to engage others? ("angry bird" version).

Look at simcity approach.

Kim Warren hosted a Covid Competition.

Version: pre-built models to play with.

Rio Grande Water System. Len has info.

Engage new members, sponsors, software publishers.

### **Moving to Action**

In our February Policy Council, we asked you to work on possible ideas on the four strategic goals supporting System Dynamics and the SD Society:

Teams	Goal
1&5	Reach 1,800 SDS Members by the end of 2025
2&6	Increase the SD knowledge and skill levels of Society members
3&7	Increase # of high-quality, high-impact outputs from the field each year
4&8	Increase awareness of executives, policymakers, & public about high-quality SD outputs (i.e., increase visibility)

Selection criteria:

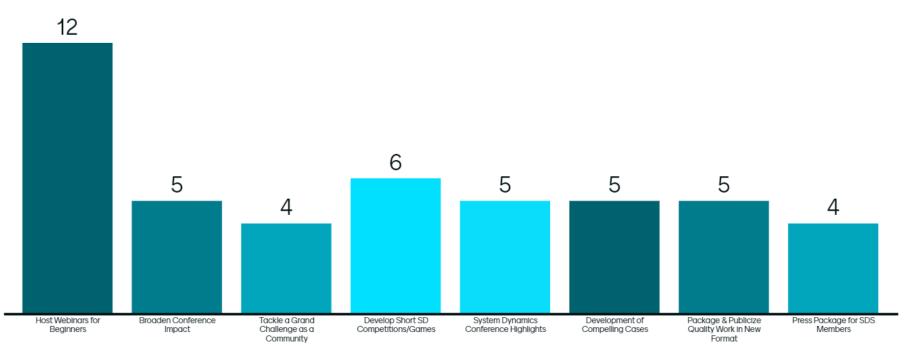

- The idea could significantly contribute to the stated goal
- The idea was described in a concrete way

## **Eight Winning Ideas**

### 1. Host Webinars for Beginners

- (David Keith, Fernando Redivo)
- 2. Broaden Conference Impact
  - O (Asmeret Naugle, Brad Morrison, Sharon Els)
- 3. Tackle a Grand Challenge as a Community
  - O (Krys Stave, Will Glass-Husain, Birgit Kopainsky)
- 4. Develop Short SD Competitions/Games
  - O (Thomas Wittig, Bob Eberlein)
- 5. System Dynamics Conference Highlights
  - O (Will Glass-Husain, Krys Stave, Birgit Kopainsky)
- 6. Development of Compelling Cases
  - O (Bob Eberlein, Thomas Wittig)
- 7. Package & Publicize Quality Work in New Format
  - O (Len Maczynski, Raafat Zaini, Diana Fisher)
- 8. Press Package for SDS Members
  - O (Vinicius Picanco Rodriguez, Lees Stuntz, Paul Newton)

### Mentimeter voting - menti 66 52 539

### **3:** Tackle a Grand Challenge as a Community (Krys Stave, Will Glass-Husain, Birgit Kopainsky)

#### Goal:

•Increase awareness of executives, policymakers, & public about high-qualit SD outputs (increase visibility)

#### **Idea Description:**

- •GC: fundamental problem, difficult but tractable, transdisciplinary, bold ideas, unconventional approaches
- •Develop set of GCs for System Dynamics, or Choose one already identified
- •Pursue one as SD community

#### **Resources Required:**

- coordinators, framework
- meetings, subgroups, members and subtasks
- modeling platform(s), insight synthesis
- communication

### 8: Press Package for SDS Members

Vinicius Picanco Rodriguez, Lees Stuntz, Paul Newton)

### Goal:

 Increase awareness of executives, policymakers, and public about high-quality SD outputs

### Idea Description:

 Equip SDS members with materials and guidelines to promote high-quality SD output in key media outlets

#### **Resources Required:**

- Promotional material/visuals with up-to-date SDS information and talking points about SD
- Guidelines on how to approach and manage relationship with key media outlets
- Examples of past successful media coverage of work carried out SDS members (repository/clipping?)
- List of local/national media contacts, curated by each chapter

(Raafat Zaini, Raquel Buzogany)

### Goal:

Increase awareness of executives, policymakers, & public on high-quality SD outputs (i.e., increase visibility)

### Pilot:

SIGs are invited to submit **3-5 min videos** (and clarifying material) on distinguished **cases** in their field.
Cases must show **tangible results of real-world implementation** (not expected or projected results).
Initiative presented in the last SIG meeting, accompanying **guidelines** to be sent out.
SIGs have been asked to make known their interest in submitting a case in 2021.

**Actors:** SIGs, VP SIGs and AVPs, Marketing Team, Office.

### **Expected results:**

SIGs to help produce videos, blog posts, webinars; Increased visibility of SIGs; Material for chapters or other volunteers to translate

### **Goal:**

- Make high-quality material available to the public. In this case, PLENARIES and PARALLELS of the conference.
- If you had to do this tomorrow, what would you do? Ask 2021 and 2022 ProgChairs about video rating of parallel presentations (helps prioritizing)
- What is an outcome you can achieve within a calendar year?

### Idea details:

- Who will be the champion? Diana F. What will you do next? What is the team Composition?
- What are the details of the project? When should our group meet? Make it delayed. Authorization is not clear.

### What are the resources required?

### **1:** Host Webinars for Beginners (David Keith, Fernando Redivo)

- SDS Webinars have been successful in 2020/21 Av. Attendance ~150
- Access to Experts has been a persistent challenge for Beginners
- Run Webinars in partnership with Student Chapter as a way of engaging Beginners at scale
- Keep recordings to build a repository of high-quality teaching resources
- Focus on 1) methodology fundamentals and 2) canonical models
- Content ideas:
  - Plan a sequence of fundamentals so that over time a self-guided course gets recorded any capable modeler can lead
  - $\circ$   $\,$  Have authors present their own papers where relevant e.g.
    - Rahmandad and Sterman (2012) Reporting Guidelines for Simulation-Based Research in Social Sciences
    - Black (2013) When Visuals are Boundary Objects in System Dynamics Work
    - Homer (1983/2012) Partial-Model Testing as a Validation Tool for System Dynamics
  - Run Webinars Alongside New SDR Publications e.g.
    - Schoenberg et al. (2020) Understanding Model Behavior using the Loops that Matter Method

### 2: Broaden Conference Impact (Munaf Syed Aamir, Asmeret Naugle, Brad Morrison, Sharon

**Goal:** We want to have a conference that people want to attend because they will learn something, be able to acquire services, and *E*acquire business.

**Benefit:** We can increase the impact and reach of system dynamics by reaching decision-makers and creating new opportunities for students, consultants, and others in the area.

#### Policy options for realization:

- 1. Actively encourage more vendors and customers to attend
  - 1. Targeted marketing
  - 2. Problem solving crowd sourcing for localized business to the physical conference (could be a learning opportunity for students to see how consulting is done live as well).
  - 3. Reduced attendance fees for potential customers
- 2. Dividing academic and business segments of the conference
  - 1. Create a vendor forum / association for the conference that focuses on creating ties and developing information for vendors.
  - 2. Create lower barriers for presenting application papers (e.g. abstract submissions phase then a presentation submission phase)
  - 3. Quality is important but this is competition ... poor quality will be met with poor results in attracting business

#### 3. Enhanced workshop day

- 1. Distinguish academic and actual vendor workshop slots
- 2. Consider charging vendors for slots, academic slots should be free but should be competitive
- 3. Consider including differing analytic perspectives at the conference that is geared to an applied audience
- 4. Could allow having a fee structure for select workshops.

### **3:** Develop Short SD Competitions/Games (Thomas Wittig, Bob Eberlein)

 $Competition \rightarrow Cooperation$ 

Leverage the "Beer" Game, modernized, Fishbanks.

Inspire and engage "next generation modelers"

Small games, Challenges, Several levels.

Look BCN, out of Singapore. Clexchange.org under apps, curriculum

### Goal: Engaging Games, Multi-level, Small models

- If you had to do this tomorrow, what would you do?
- What is an outcome you can achieve within a calendar year?

### Idea details:

- Who will be the champion? What will you do next? What is the team Composition?
- What are the details of the project? When should our group meet?
- Using small games, several levels. Based on SD models.
- Separate Idea: Hackathon, Giving feedback on the work.

### What are the resources required? Software vendors to host the games

### **Goal:**

- If you had to do this tomorrow, what would you do?
- What is an outcome you can achieve within a calendar year?

# Idea details:

- Who will be the champion? What will you do next? What is the team Composition?
- What are the details of the project? When should our group meet?

# What are the resources required?

• ??

# 4: System Dynamics Conference Highlights (Will Glass-Husain, Krys Stave, Birgit Kopainsky)

Goal:

•Increase awareness of executives, policymakers, & public about high-qual SD outputs (incr visibility)

#### Idea Description:

•Publish conference highlights on SD website on interesting talks, ideas, and themes. •Objective is to summarize interesting work in a way that can be shared with others, and also to facilitate cross-pollination of ideas within community.

•Use non-technical language and a clear writing style for accessibility by non-experts. •Articles may be themed, aimed at general audiences, or simply day-by-day "recaps" •Example topics:

•"Climate change is a key topic at 2021 System Dynamics Conference"

•"Educators share experiences of middle school students building computer models at 2021 System Dynamics Conference"

•"Chicago 2021 Day 1 – my experience"

#### **Resources Required:**

•5-10 volunteers to write articles during conference (due 1 week after)
•Coordinator to accept submissions, post articles (or summary w/ links) on website.
•Pre-conference prep: article template, submission system/instructions, prep section of website.

### 5: Development of Compelling Cases (Bob Eberlein, Thomas Wittig)

- Case repository is a fabulous resource
  - As is the story repository
- But the descriptions are specific to the work done
  - Need to generalize to other issues/problem areas
    - Much like the Archetypes in the 5th Discipline
    - Also the way that many pop-management books are written
- Cases then become a platform for applying the principles of systems in a variety of settings
  - Atrophy of the pancreas for those who remember Jay's story

### **6:** Package & Publicize Quality Work in New Format

(Len Maczynski, Raafat Zaini, Diana Fisher)

# Goal:

Increase awareness of executives, policymakers, & public about high-quality SD outputs (i.e., increase visibility)

## Idea description:

Produce short videos, animated abstracts, author interviews, podcasts, or translations of impactful/ Quality SD work.

Videotape ISDC plenary presentations and make them public on YouTube with multi language subtitles

### **Resources Required:**

SIGs to nominate/suggest distinguished work in their area

Volunteers to translate or check translation quality

SIGs to help with producing videos, animations, author interviews, and podcasts

Marketing to put media package together for publicity

### **Goal:**

- If you had to do this tomorrow, what would you do?
- What is an outcome you can achieve within a calendar year?

# Idea details:

- Who will be the champion? What will you do next? What is the team Composition?
- What are the details of the project? When should our group meet?

# What are the resources required?

• ??

### Wonder.me

- "Bump" into someone OR enter a circle to video chat
- Turn on camera and mic at bottom (sharing may require a setting change)
- Chat on right of screen

### **VP Membership Report**

- History
- Status Update
- Next Time

**Asmeret Bier Naugle** 

Sandia National Laboratory

### **Dues Change**

	2020 Dues	2021 Dues	
Full Time Students*	\$15	<b>\$25</b> \$15 if University Sponsored	
Supported Member (country or K- 12)**	\$15-\$110 based on self-report income	\$50	
Regular Member	\$140	\$140	

\* includes those two years after graduation though we have no way to check

\*\* includes countries classified by World Bank as lower income & lower-middle-income and special requests based on hardship

### Membership Status Update

	Budgeted Dues	Actual Dues	Budget Members	Actual Members
2019 Actual Quickbooks	\$61,554	<b>\$50,803</b> (avg \$71)		1001
<b>2020 YTD 08</b> Memberclicks	\$69,959	<b>\$84,935</b> (avg \$64)		1434
2021 (YTD)	<b>\$62,000</b> (avg \$62)	<b>\$90,240</b> (avg \$90)) Includes some print journal dues	1000	982 13.9% subscriptions

Notes: Revenues exceed last year.

We are likely to get more memberships with conference registrations after acceptance letters.

# Activity in small groups, focused on ideas to increase membership

# Breakout session: Game competitions

Need to clarify: What is the objective? Who is the target audience?

Len participated in Hackathons with Powersim. US Soybean export council. Carbon emission reduction. Birgit was involved.

Idea: develop a game to engage others? ("angry bird" version).

Look at simcity approach.

Kim Warren hosted a Covid Competition.

Version: pre-built models to play with.

Rio Grande Water System. Len has info.

Engage new members, sponsors, software publishers.

### **Moving to Action**

In our February Policy Council, we asked you to work on possible ideas on the four strategic goals supporting System Dynamics and the SD Society:

Teams	Goal
1&5	Reach 1,800 SDS Members by the end of 2025
2&6	Increase the SD knowledge and skill levels of Society members
3&7	Increase # of high-quality, high-impact outputs from the field each year
4&8	Increase awareness of executives, policymakers, & public about high-quality SD outputs (i.e., increase visibility)

Selection criteria:

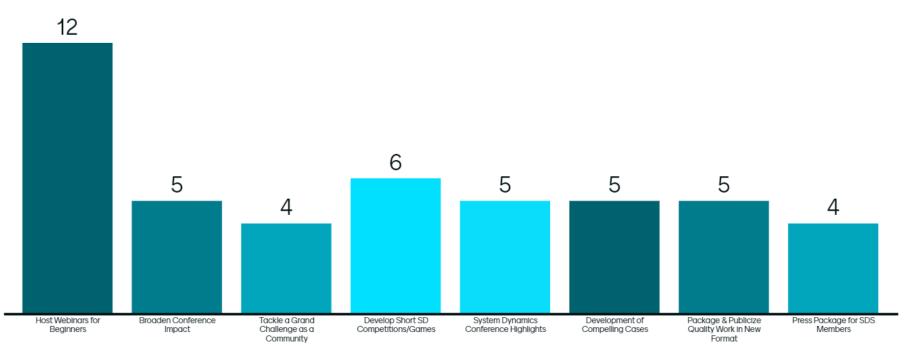

- The idea could significantly contribute to the stated goal
- The idea was described in a concrete way

# **Eight Winning Ideas**

### 1. Host Webinars for Beginners

- (David Keith, Fernando Redivo)
- 2. Broaden Conference Impact
  - O (Asmeret Naugle, Brad Morrison, Sharon Els)
- 3. Tackle a Grand Challenge as a Community
  - O (Krys Stave, Will Glass-Husain, Birgit Kopainsky)
- 4. Develop Short SD Competitions/Games
  - O (Thomas Wittig, Bob Eberlein)
- 5. System Dynamics Conference Highlights
  - O (Will Glass-Husain, Krys Stave, Birgit Kopainsky)
- 6. Development of Compelling Cases
  - O (Bob Eberlein, Thomas Wittig)
- 7. Package & Publicize Quality Work in New Format
  - O (Len Maczynski, Raafat Zaini, Diana Fisher)
- 8. Press Package for SDS Members
  - O (Vinicius Picanco Rodriguez, Lees Stuntz, Paul Newton)

### Mentimeter voting - menti 66 52 539

### **3:** Tackle a Grand Challenge as a Community (Krys Stave, Will Glass-Husain, Birgit Kopainsky)

#### Goal:

•Increase awareness of executives, policymakers, & public about high-qualit SD outputs (increase visibility)

#### **Idea Description:**

- •GC: fundamental problem, difficult but tractable, transdisciplinary, bold ideas, unconventional approaches
- •Develop set of GCs for System Dynamics, or Choose one already identified
- •Pursue one as SD community

#### **Resources Required:**

- coordinators, framework
- meetings, subgroups, members and subtasks
- modeling platform(s), insight synthesis
- communication

### 8: Press Package for SDS Members

Vinicius Picanco Rodriguez, Lees Stuntz, Paul Newton)

### Goal:

 Increase awareness of executives, policymakers, and public about high-quality SD outputs

### Idea Description:

 Equip SDS members with materials and guidelines to promote high-quality SD output in key media outlets

### **Resources Required:**

- Promotional material/visuals with up-to-date SDS information and talking points about SD
- Guidelines on how to approach and manage relationship with key media outlets
- Examples of past successful media coverage of work carried out SDS members (repository/clipping?)
- List of local/national media contacts, curated by each chapter

(Raafat Zaini, Raquel Buzogany)

### Goal:

Increase awareness of executives, policymakers, & public on high-quality SD outputs (i.e., increase visibility)

### Pilot:

SIGs are invited to submit **3-5 min videos** (and clarifying material) on distinguished **cases** in their field.
Cases must show **tangible results of real-world implementation** (not expected or projected results).
Initiative presented in the last SIG meeting, accompanying **guidelines** to be sent out.
SIGs have been asked to make known their interest in submitting a case in 2021.

**Actors:** SIGs, VP SIGs and AVPs, Marketing Team, Office.

### **Expected results:**

SIGs to help produce videos, blog posts, webinars; Increased visibility of SIGs; Material for chapters or other volunteers to translate

### **Goal:**

- Make high-quality material available to the public. In this case, PLENARIES and PARALLELS of the conference.
- Ask 2021 and 2022 ProgChairs about video rating of parallel presentations (helps prioritizing)
- What is an outcome you can achieve within a calendar year?

### Idea details:

- Who will be the champion? Diana F. What will you do next? What is the team Composition?
- What are the details of the project? When should our group meet? Make it delayed. Authorization is not clear.

### What are the resources required?
