

Policy Council Resolution on Honorarium Payments for Teachers and Teaching Assistants of the System Dynamics Society School

Moved: That teachers and teaching assistants for the System Dynamics Society School may be paid an honorarium in cash or waived conference fees as elected by the recipient and that if the honorarium is declined in part or in whole the declined amount be added to a SDSS scholarship fund which will be treated as a designated fund hereinafter.

The above resolution was approved by a unanimous vote of the Policy Council on June 28, 2023.

Abstract

The System Dynamics Society School is being offered in 2023 online before the conference and may be offered once or more annually in sections going forward. Budgeting for the school, which returns a surplus to the Society, is included as part of the annual budgeting process. The school offers an honorarium to teachers of \$1,500 and to teaching assistants of \$1,000. Not all instructors choose to take all of this honorarium and any amount not taken is added to a scholarship fund designated for SDS School students.

The honorarium acknowledgement form is attached as a report. It will be implemented in online format.
